### The MNDMR System requires that:

- Repeater owners agree to support the talkgroups listed below.
- Repeater owners understand and agree that any repeater linked to the MNDMR system shall not be connected to Brandmeister, DSTAR, Echolink, P25, System Fusion, IRLP, or any other bridge type while connected to the MNDMR C-Bridge.
- Repeater owners agree to make their linked repeater available for special events, emergency management functions or disasters as needed. The MNDMR Management Team will work with the repeater owner on details.

**MNDMR Talkgroups:**

**These are the ONLY talk groups we currently carry: (Recommendations below for PTT)**

**DISCLAIMER AND SIGNATURE**

I certify that my answers are true and complete to the best of my knowledge.

Failure to represent a repeater's application truthfully and completely will result in denial or delinking if found to be falsified.

Any applicant that has been approved for linking that goes against these guidelines may be delinked.
